

## SOLSTICE CHANDELIER by Baccarat

48L, Clear crystal

### History :

While drawing some inspiration from earlier Baccarat models, the more inventive Solstice chandelier incorporates downward curving branches to create a rather non-traditional form.

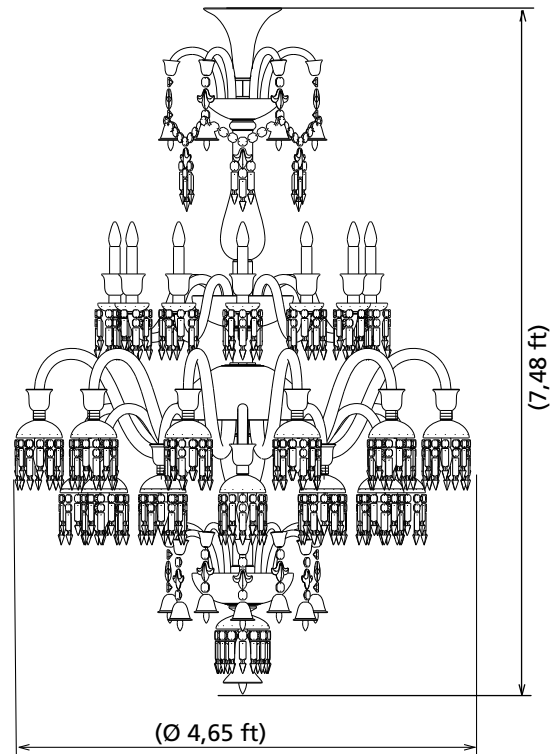

### Composition :

High level of dimensional modularity depending on the number of lights selected (from 6 to 48 lights). Composed of hollow branches in blown cabled crystal and curved scrolls in cabled crystal, symbolic of Baccarat's skill in glassmaking. Canopy, cones, baluster, drip-pans, light-holders and bellcaps are in cut crystal in a diamond point design. A wealth of decoration produced by the assortment of spiked prisms, festoons of octagons and clappered bellcaps. A red crystal octagon represents the Baccarat signature.

### General information

Diffused lighting  
 Power supply: block terminal  
 Cable length: 39,37 in  
 Product weight: 335,10 lbs
